

# MUHAMMAD WAHEED

FULL-STACK WEB & ANDROID DEVELOPER | JAVA · LARAVEL · REACT

+971 52 884 1989   dadag38@gmail.com   [linkedin.com/in/waheedofficial38](https://www.linkedin.com/in/waheedofficial38)

Sheikh Zayed Road, Al Quoz 1, Dubai, United Arab Emirates

## PROFESSIONAL PROFILE

---

Android & Full-Stack Developer with 7+ years of experience building and deploying mobile and web applications. Proficient in Java for Android development, with a proven track record of taking apps from concept to Google Play Store deployment. Experienced in integrating RESTful APIs, third-party libraries, and backend services within Android applications. Also skilled in Laravel, PHP, MySQL, and React for full-stack web delivery. Based in Dubai and immediately available for Android Developer roles.

## WORK EXPERIENCE

---

### Senior Full-Stack Web & Android Developer | **Abiding Tech** 2018 – 2026

*Gujranwala, Pakistan / Remote — UAE & Saudi Arabia clients*

- Designed and built Android applications in Java — from architecture and UI design through to Google Play Store deployment, covering grocery delivery, e-learning, and service booking apps
- Integrated RESTful APIs, Google Maps SDK, payment gateways, and third-party libraries into Android apps; implemented secure user authentication and session management
- Developed Punjab Bazaar (grocery delivery) and a Study Abroad Guide app for Google Play Store — managing store listings, assets, and release cycles
- Built full-stack web platforms using PHP, Laravel, MySQL and React for corporate clients across Pakistan and the UAE; integrated SMS providers, mapping services, and payment gateways
- Led code reviews, enforced coding standards, and mentored junior developers in a team of 4+ across Android (Java) and web stacks
- Conducted cross-device and cross-browser testing to ensure quality, performance, stability, and compatibility
- Managed MySQL and SQL Server databases — schema design, query optimisation, and automated backups

### Full-Stack Web & Android Developer | **Getsol** 2017 – 2018

*Sunny Centre, Gujranwala, Pakistan*

- Developed Android applications in Java — requirement gathering, UI/UX implementation, API integration, QA, and Play Store deployment
- Built database-driven websites and eCommerce portals using PHP, Laravel, and MySQL
- Collaborated with designers and project managers to translate client briefs into working Android and web products
- Performed device fragmentation and OS version testing to ensure quality and compatibility across Android handsets

### Junior Android App Developer | **Eagle Soft** 2017 (3 months)

*Gujranwala, Pakistan*

- Assisted in developing Android applications in Java as part of a professional development team
- Gained hands-on experience in Android SDK, activity lifecycle, UI design, and debugging within a structured software house environment
- Supported senior developers in testing, bug fixing, and feature implementation
